### THE PREFERRED EMBODIMENTS.

Pages 5-6, please amend the paragraph bridging the pages starting at line 20 of page 5 through line 2 of page 6 as follows:

As shown in Figure 5, double-sided adhesive tape 11 is then applied to the surface of a support 12, the plate 9 and support 12 being illustrated with their major surfaces normal to the page. In this case the support 12 has the same shape as the tuning door in the finished device. It has two flat planar parts 12A and 12B and a central part-cylindrical part 12C. The plate 9 is offered up and fixed to the support 12 by means of the adhesive tape 11, to thus form the tuning door 14.
